

Notes:

- Chart not to be used for navigation
- The Finish Line will be approximately 200' North of the pier near the entrance to Clipper Cove.
- To get to the Oakland Estuary after your finish, use the new buoyed channel between the India (I) Julliet (J) span of the Bay Bridge. The Vertical Clearance is 122' at Mean High Tide.
- The spans under the Bay Bridge closest to YBI are closed
- Vessels should transit carefully through the construction area. The most common danger is snaring an anchor wire of one of the buoys or barges.
- Skippers, who are uncomfortable going under the bridge on the east side, may go around the West side of Treasure Island.
